

# Working in Confined Spaces

## *IIRSM Approved*

At the end of this course you'll be able to demonstrate your understanding of the control measures to be followed when working in, or near to, confined spaces as detailed in a safe working procedure

This course will cover the legislation associates with working in confined spaces. What counts as a confined space, the potential hazards, safe operating procedures, emergency procedures and rescue.

Important note: This is an awareness course only, designed for people who need to be aware of the hazards and risks of confined space working but are not required to enter a confined space. If you are required to perform any work activity in, or in the proximity of, a confined space then you will also need to have an 'approved' standard of practical training at the 'appropriate' level.

Course	Module Number	Module Name	Pass % Required
Working in Confined Spaces	1	The Law	70
Working in Confined Spaces	2	Confined Space and the Dangers?	70
Working in Confined Spaces	3	Safe Procedures	70
